#### Objective:

Dedicated and highly motivated web developer with a strong foundation in HTML, CSS, and JavaScript, as well as proficiency in various programming languages and packages. Committed to creating responsive and user-friendly web solutions. Seeking an opportunity to contribute to a dynamic team and apply my coding skills to real-world projects.

#### Education:

University of Utah Coding Bootcamp  
04/23 - 10/23

- Completed an intensive full-stack web development bootcamp.
- Gained proficiency in HTML5, CSS3, and JavaScript for front-end development.
- Developed back-end skills using Node.js and Express.js.
- Created responsive, dynamic web applications using React.js.
- Acquired knowledge of database management with MongoDB and MySQL.
- Utilized version control systems like Git and GitHub for collaborative coding.

#### Skills:

- Front-End Technologies: HTML5, CSS3, JavaScript, React.js
- Back-End Technologies: Node.js, Express.js
- Databases: MongoDB, MySQL
- Version Control: Git, GitHub
- Responsive Web Design
- Debugging and Troubleshooting
- Web Performance Optimization
- Cross-Browser Compatibility
- Problem Solving and Critical Thinking
- Team Collaboration
- Strong Communication Skills

#### Projects:

##### 1. **\*\*Personal Portfolio Website\*\***

- Developed a responsive portfolio website to showcase personal projects.
- Implemented smooth animations and interactive features using CSS and JavaScript.
- Optimized performance and load times for a seamless user experience.

## 2. **\*\*Task Manager App\*\***

- Created a task manager application with user authentication and database integration.
- Utilized MySQL for data storage and Express.js for the server.
- Implemented RESTful API endpoints for CRUD operations.

\*Check my github (<https://github.com/Reibean>) for detailed view of these among many other projects

Work Experience (if applicable):

Customer Service Rep

Readywise

Salt Lake City, Utah

8/22-current

- In my role at customer service I constantly have to be the middle man saving the company in the eyes of the customer while simultaneously not sacrificing too much so that the company is at a loss. Very precise and detailed messages sent to other teams in order to communicate things that need to happen so that my promises to customers are fulfilled.

Languages:

- Obviously I am qualified to work with HTML, CSS, and Javascript. Alongside those I have also worked with plenty of other packages, languages, and frameworks such as:  
Express, Node, MySQL, MongoDB, Handlebars, React, and Bootstrap
